

OFFICIAL RECORDING NOTICE

AWARENESS OF FILMING OPERATIONS IN PROGRESS

LIVE POINT-OF-VIEW FILMING IN PROGRESS

FOR THE GENERATION OF INDUSTRIAL SAFETY DOCUMENTATION

Live POV video and audio data is being captured in this area and is processed exclusively to create accurate, time-stamped industrial safety documentation (including Standard Operating Procedures (SOPs) and Risk Assessment & Method Statements (RAMS)) via the SafeSequence automated compliance platform.

LEGAL & PRIVACY DATA NOTICE

This operation is conducted with rigorous oversight to ensure full compliance with current UK data protection legislation and GDPR guidelines. Our **"Privacy-by-Design"** framework guarantees individual anonymity.

AUTOMATED REAL-TIME REDACTION: Advanced AI protocols permanently mask all facial features, vehicle identifiers, and visible sensitive text from processed footage.

DYNAMIC AUDIO ANONYMIZATION: Spoken identifiers and personal names are dynamically scrubbed and substituted with generic descriptive text in final reports.

STRICT 30-DAY RETENTION POLICY: All raw capture data is stored in encrypted quarantine buckets and automatically deleted without exception after a maximum of 30 days.

DATA PURPOSE LIMITATION: Record data usage is restricted exclusively to the development of official site safety and compliance documentation used for no other purpose.

For more information, please contact the site operator or info@safesequence.co.uk.
